

**Atom Practice Roster Assignments  
for Phase 3**

Phase 3 will consist of a minimum of two exhibition games to a maximum of four, with a minimum of one practice time and a maximum of two over the period of September 4 - 12. Atom A1 will be led by Amy de Bree while Atom A2 and A3/A4 will have volunteer parents overseeing the execution of the team operations but will not be part of the final evaluation process. Final decisions for the atom teams for the season will be made on Wednesday, September 12 and will be communicated either directly by the coach or by the association shortly after. As the A3/A4 group will be together for this period, a final determination on total number of teams this season will be made at the same time as final rosters are assigned.

Please note there is a draft schedule on the Participant Information page but someone from your team will also be in contact with you shortly.
